

Dear board election committee,

This is to affirm that Alexander Augustine Abutu is a member of the Nigerian Association of Science Journalists (NASJ).

As the inaugural National Coordinator of the association prior to the formation of a substantive executive and having been a critical part of the success stories of NASJ, I am of the strong belief that Mr. Abutu will be a great resource for the World Federation of Science Journalists (WFSJ).

It is against this and his many strong points, including the vast knowledge he has acquired while traversing various borders in the course of working as Science journalist that I am recommending him for election into the Board of WFSJ.

Thanks

Onche Odeh
Outgoing President/Member, Board of Trustees, NASJ
