Letter of recommendation for Federico Kukso

I write this letter in order to support the application of Federico Kukso to a position on the board of the World Federation of Science Journalists. I have known Federico for more than ten years. He has proven to be an enthusiastic, inquisitive, sensitive and skilled science journalist, with a deep commitment to explore and fill the gaps between science, media, and society.

He is one of the most active members of the Argentinian Network of Science Journalists, our science journalism association founded in 2010. Since 2007, he organized several activities and professional workshops at our association, besides attending three World Conferences of Science Journalists (Doha, Helsinki, Seoul) and regional meetings, representing our association.

I'm certain that if he is selected he will encourage to elevate the quality of our profession throughout the world. Without reservation, I strongly recommend his application. If you have any questions, please feel free to contact me.

Sincerely,

Valeria Román
Science journalist /
Former vicepresident World Federation of Science Journalists
