

TO: Nomination Committee for the WFSJ board

Dear Sir or Madam,

I am writing to recommend Milica Momcilovic for the board of the World Federation of Science Journalists.

I've met Milica many times at science conferences and journalist meetings. I know she covers a variety of topics as a full time science journalist for the Serbian national broadcaster. She always acts professionally and is courteous and helpful to her fellow journalists.

She often takes an active role at the conferences I've attended and I know she has been active in the Balkan network of science journalists and in promoting this network's activities. She has a strong interest in science journalism as a profession. I respect her professionalism and integrity and would recommend her for this post.

Yours sincerely,
Anthony King, anthonyjking@gmail.com
