

Morelia, Michoacán, México July 7th, 2017

**NOMINATION COMMITTEE
WORLD FEDERATION OF SCIENCE JOURNALISTS**

The purpose of this letter is to recommend Manuel Lino for one of the International Board positions at the World Federation of Science Journalists.

Manuel possesses excellent journalists skills as editor and producer. He worked for twelve years at *El Economista* newspaper in México. During that time he promoted the inclusion of science as part of the cultural section, being one of the few newspaper at that times that covered as part of the culture, histories related to the environment, health and innovation. His last job was at the front of *Creadores Universitarios*, a TV Program broadcasted by Foro Tv Channel. During the last months, Manuel has become a freelance journalist with a great dedication and commitment to our Mexican Network of Science Journalists which he chairs.

Manuel is a natural leader with the ability to function as an excellent mediator and conciliator in work groups. He has a positive attitude and a strong commitment to the drive of science journalism in Mexico. He has shown interest in organizing training courses and creating collaborative networks between science journalists in Mexico and Iberoamerica.

It is a pleasure to recommend Manuel Lino for the International Board, if you need further information please contact me via skype or by email: anaclaudia.nepote@gmail.com.

SINCERELY,

**ANA CLAUDIA NEPOTE
BOARD MEMBER**

MEXICAN NETWORK OF SCIENCE JOURNALISTS
